

Secure Your Workplace with Aware!

Cybersecurity is a shared responsibility, and your staff plays a vital role.

Aware's Security Awareness Training

Security awareness training is a continuous learning process that teaches employees the best cybersecurity practices and how to dodge cyberattacks with minimum human error.

Why security awareness training?

The average cost of human error data breaches in 2019 was \$3.5 million.

- IBM / Ponemon Institute

22% of security breaches involved phishing.

- Verizon's 2020 Data Breach Investigations Report (DBIR)

Avoid Security Incidents Causing Human Error with Aware's Security Awareness Training Today!
